

## Water Stewardship Policy

Privi Speciality Chemicals Ltd believe in the importance of water in protecting the environment, human health and economic development in our local communities. Our vision is to preserve water resources and respect the natural cycle of water wherever relevant to our business and in cooperation with our stakeholders,

We shall endeavor to

- ❖ Ensure full legal compliance with all water-related laws, regulations, and standards.
- ❖ Establish specific and measurable objectives aligned with principles of Sustainable Water Management.
- ❖ Minimize operational impact on water resources by monitoring, understanding, and managing water usage and wastewater discharge.
- ❖ Reduce freshwater consumption through water reuse and recycling, and ensure all wastewater is treated to levels that support aquatic life.
- ❖ Uphold water-related rights, guaranteeing safe access to water, sanitation, and hygiene (WASH) for all workers across premises under our control.
- ❖ Collaborate with public sector agencies to implement water-related plans and policies, contributing to the realization of the human right to water and sanitation.
- ❖ Engage stakeholders to understand their perceptions and concerns and assess local conditions and company impacts.
- ❖ Raise community awareness on responsible water use and actively involve stakeholders in protecting and regenerating water resources through educational programs and community-based initiatives aimed at reducing pollution in lakes, rivers, and seas.
- ❖ Support national and international water treaties in accordance with government guidelines.
- ❖ Participate in industry exchange programs to share non-competitive water stewardship practices and promote the continuous improvement of water standards and policies.
- ❖ Disclose relevant water-related information transparently to appropriate audiences.
